Chiara Cerletti

Istituto Neurologico Mediterraneo Neuromed, Pozzilli (IS), Italy

Bleeding, Thrombosis and Vascular Biology encourages and promotes clinical and laboratory research on thrombosis and hemostasis through the institution of research awards and "travel grants" for young researchers to participate in Italian or international congresses. It develops and supports the organization of scientific congresses, conferences, and educational courses on the themes of hemostasis and thrombosis, promoting the exchange of knowledge. It promotes, protects, and disseminates the research results carried out by its members and raises awareness of these issues in the scientific world. **Bleeding, Thrombosis and Vascular Biology** transfers and summarizes developments in international research in hemostasis and thrombosis through the preparation of guidelines for the diagnosis and treatment of thrombotic or hemorrhagic diseases, encouraging the application of scientific data to clinical practice.
